

POOL BARRIER FENCE REQUIREMENTS

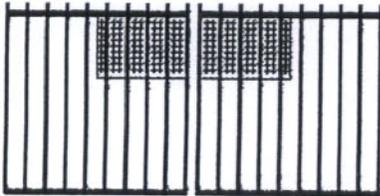

At least 48 inches tall

- < Top and bottom rails min. 45 inches apart.
- < Max. opening size shall not allow the passage of a sphere greater than 4 inches in diameter.
- < Decorative work shall not make fence climbable.
- < Bottom of fence $\left\{ \begin{array}{l} \text{max. 2 inches above grade} \\ \text{max. 4 inches above hard surface} \end{array} \right.$

Pool fence and gate need to be completed before plaster and filling with water.

GATE

- < Walk gate needs to be outswing, self closing, and automatic latching mechanism on the pool side.
- < When gate self-latching device is less than 54 inches above the bottom of the gate, it needs to be on pool side, at least 3 inches below top of gate. The gate and fence need 18" x 18" latch guard that has holes smaller than 1/2 inch diameter.
- < All other gates need to be lockable and kept locked when not in use.

Property owner and Contractor are responsible for code compliance and work is subject to field inspections. Please read all related handouts provided herewith, they are intended to help you understand the minimum requirements. This and other handouts may not cover every aspect of code text nor graphically represent all construction details needed.

OMMISSIONS OR ERRORS ARE NOT BASIS FOR NON-CODE COMPLIANT INSTALLATIONS.
